

To

The Basundhara Parents Association

Sweden

Greetings from Basundhara.

Kindly receive the project proposal for the Integral School at Basundhara made for underprivileged children, with the Budget plan /year.

The association is open to contribute the whole amount or a part of the total expenditure as per its convenience. It will be a great pleasure & privilege for Basundhara ,whatever be the contribution .

Anyhow we request the association to contribute the recurring amount (fully or partly) of the project & if it continues every year it will be a great support for us to continue the project.

Thanking you.

With regards.

Asima

BACKGROUND

Human being is an intellectual animal. Education makes human being most superior among all the races. Education plays a vital role in building the core values of life .It helps to take smarter decisions in life & to behave wisely. The quality and prosperity of a nation or a civilization depends on the very quality of its citizen and the quality of Education imparted at different stages of life determines the quality of the citizen of that nation .so we can say the growth of a nation is greatly affected by the education system of the nation directly or indirectly.

It creates opportunities to play with different orientations of a subject/matter, be it science & technology, philosophy & psychology, health or politics etc.

In its pure form and true delicacy it reveals the doors of supreme peace in the name of self realization. So Education is a basic need of life.

Basundhara has been trying to serve people by providing some of the basic needs of life since its inception . Integral School is a step forward in this context where fundamental education with overall personality development of a child would be the focus.

Concept:

- Basundhara is a child care institution, consistently working for the children since 24 years. It rescues the children from difficult situations and provides them residential care with adequate basic facilities like education, health care, counseling and vocational training. More or less all types of children are taken under care, such as physically and mentally handicapped, HIV positive, Child labour and so on.
- At present 15 girls are going to general school and studying in various classes. But the children those who are HIV positive and physically handicapped girls are facing difficulties to get admitted in general school because of stigma attached.
- These days , Basundhara has been coming across many cases where the parents are interested to educate their children through residential education because they are insufficient to educate them.

Objective of the Project

Free primary residential education to 100 numbers underprivileged children .

Target Group-

- The school will be for the girls who are socio-economically back ward.
- The HIV positive children those who are staying in basundhara & outside, isolated and not been allowed to avail the general school.
- The children (girl) from poor family residing near by the community.

Strategies:

- Participatory education
- Priorities on Recreation and exposure
- Focus on overall Dev. Of every child.

Plan of Education:-

Integral Education aims at:

- Development. Of Body.
- Development. Of Psyche/mind.
- Development. Of Intellect(IQ+ Consciousness).
- Development. Of Spirit.
